

Pollution

Renewable Robbie wants you to look at the picture below:

How many trees can you count?

How many chimneys can you count?

Do you think the smoke that is coming from the chimneys is good for the trees?

Yes _____ No _____

Why?

Draw some fish in the river and birds in the air. Pollution is also very bad for the fish and birds and can even kill them.

Now, you can colour in the picture.

The picture on page one shows pollution coming from a factory. Can you remember where else pollution can come from?

Unscramble the words below to remind you:

Pollution can come from:

racs	c _ _ s
ousshe	h _ u _ _ s
esbus	b _ s _ s
penrolaesa	a _ r _ p _ _ n _ s
hpssi	s _ _ p _
kcturs	t _ u _ k _

**Did you get all the words?
Renewable Robbie hopes so!
Join him now to learn about global warming!**
